

Deep Infection Dorsal Foot Wound Traumatic Injury and Infection, Manno et al.

**Pre-OxyBand
December 26, 2018**

**Start OxyBand
January 8, 2019**

**OxyBand Healing
January 19, 2019**

**OxyBand Success
34 Days on OxyBand**

After 8 weeks of aggressive wound treatment, condition was not improving and wound continued to deteriorate.

Once OxyBand treatment was initiated, wound began to heal and continued to do so.

Positive outcome was achieved within 4 weeks of treatment with OxyBand.
